DAMAGE AND FEAR CAUSED BY THE RAGING OHIO RIVER

Huge Cakes of Ice Crashed Into Shanty Boats,
Driving the Inmates to Other
Shelter.

A FLOOD STAGE IS PROBABLE HERE

THREE O'CLOCK BULLETIN
A MESSAGE TO THE NEWS REVIEW AT 3 O'CLOCK THIS AFTERNOON FROM THE OFFICE OF U. S. FORECASTER RIDGEWAY AT PITTSBURG PREDICTS A 25 FOOT STAGE OF WATER AT THAT CITY. THIS IS FIVE FEET LESS THAN THE PREDICTION MADE EARLIER IN THE DAY. THE RAIN AT HEADWATERS HAD CEASED ENTIRELY AT 2 O'CLOCK. THE STAGE OF WATER AT PITTSBURG AT THE SAME HOUR WAS 19.2, WITH THE WATER RISING RAPIDLY.

The threatened flood stage in the Ohio river should be at its height tomorrow noon or night at the latest. That the water will overflow its banks here is almost a certainty, the most conservative estimates placing the stage that will be reached at Pittsburgh at 25 feet. This means 30 feet at East Liverpool and that the water will creep over the banks at the low places.

The statement in a morning paper that Forecaster Ridgeway, of Pittsburgh, had given out a prediction of 40 feet there is considered ridiculous by local river men. The high mark there during the 1884 flood was 33 feet and a 40 foot stage would inundate almost the entire city. Forecaster Ridgeway's highest figures on the prospective flood are 30 feet, this bulletin having been issued this morning after he had received reports from the head waters of the Allegheny and Monongahela. The forecaster's estimates are usually above those of other river men, and the figures and predictions of Supt. Henderson, of the Pittsburgh & Cincinnati Packet Line, are more reliable.

Supt. Henderson gave out this morning that the water now in sight would cause a stage of 25 feet at Pittsburgh. River men are accepting these figures and governing themselves accordingly. In making the estimate Supt. Henderson stated that he had calculated on additional rain.

The morning reports from headwaters were not encouraging. The stage at Pittsburgh at 10 o'clock was 13.2, with a rise of four feet since the rain began to fall. Other observations at the same hour show a 16 foot rise at Freeport, on the Allegheny, and 4.2 at Greensboro. At Clarion there had been a rise of 4.6 and 8 feet at Parker. These figures were received by Captain Gus Martinelli by long distance telephone.

Messages received this morning by the Penn Stock Exchange stated that there had been a rain fall at Oil City of one and one-half inches. The rain was still falling. The ice gorges had broken there, and at Greensboro on

the Monongahela. The ice from the two rivers that form the Ohio is expected to pass here during the night, and no damage is anticipated as the river is practically clear.

The rise noted in the river here before noon today was caused from the water that reached the Ohio between this city and Pittsburgh. The rise from the Allegheny and Monongahela began to reach here shortly after noon. From 7 o'clock this morning until noon the rise amounted to but a few inches, but after noon the water rose rapidly.

Rivermen here were closely watching the stage of water at Parker's Landing. By long observation they have learned that a given stage there is doubled at Pittsburgh 14 hours later. At 1 o'clock this afternoon the stage there was seven feet and rising rapidly.

The river potteries have been making preparations for a flood stage, though some of the people connected with the plants doubt that the water will overflow its banks. There is very little preparation to be made at most of the plants.

The people living in the low parts of Jethro Hollow are almost sure of an inundation and are preparing for it. Already the rising water in the river has commenced to back up the water in Jethro run.

AN ANXIOUS NIGHT FOR RIVER MEN.

Darkness fell upon a scene almost indescribable along East Liverpool's river front. Not in years has Nature been in a wilder mood or one that threatened greater destruction and that no lives were lost or great damage wrought is certainly most fortunate. Presaged by loud, rumbling noises the huge ice jam that has filled the river for more than two weeks began to move late yesterday afternoon. Hundreds of people, from vantage points along the bank, watched the spectacle.

To close observers this Nature's play presented many peculiarities. No sooner had the glass-like surface been broken than there was wafted to the watchers a breath of air as though from the arctic and in a few moments a white vapor formed and closed in around the scene. There was a sullen roar like some great caged animal as the huge masses of ice clashed against one another.

According to observations made at the Pilgrim coal office, near the wharf boat, the first movement commenced at 2:45 in the afternoon. Almost imperceptible at the start the movement gradually increased until the full speed of the current was reached. As predicted in the News Review yesterday

day the shores of the river were swept. Crafts of all description were forced out of the water and are beyond further harm, temporarily at least.

TERROR REIGNED IN THE SHANTY BOATS

Several shanty boats were wrecked and terror reigned in parts of the shanty boat district. At least one man, John Green, had a harrowing experience and a close call for his life. Green's boat was the last in the string, moored between the Thompson and National potteries. It was frozen in and when the jam started to move it was swept from its moorings. A cross current drove huge cakes of ice toward the bank at that point and the boat, caught among them, was cut down. In a sinking condition it was forced toward the shore and Green, rope in hand, jumped onto the swirling mass, determined to save his home. He reached the shore and made the rope fast to a snag and then set about removing his belongings. The rear end of the boat was crushed and it is half filled with water.

Not one of the dozen boats near Green's escaped damage and the occupants claim they were saved from total destruction by a miracle. They pointed out one immense cake of ice, weighing hundreds of tons, that lodged only a few feet from the first of the line of boats, occupied by David Marshall.

Marshall states that this huge cake, impelled by the strong cross current, came crashing toward his boat a few minutes after the jam began to move. A willow tree, about 18 inches in diameter, was cut down as though it had been a reed. It came to a stop against the bank at the very door of the boat, after crushing the branches of the fallow tree in passing over them. The

SAFETY BOARD MET AND TALKED

Little Business of Public Importance Transacted Last Evening.

MEETING NIGHT CHANGED

The board of public safety held another lengthy meeting last evening, but there was little business transacted. In fact, the wheels of the city would have revolved in the same old way had the members forgot to assemble. Considerable wrangling was in evidence, but when it came down to real business there was nothing doing. As a result, the board decided that it would be best to meet bi-weekly in the future and commencing in February sessions will be held every other week.

Mr. Taylor spoke with vehemence on the fender question. He thought the board should make it the sense of the meeting to back council in its endeavor to compel both street railway companies operating in the city to equip their cars with fenders that will be a protection to the people, and he made a motion to that effect. The motion met with general approval and was carried.

The board realizes that it has nothing to do with passing an ordinance placing restrictions on the companies, but it was deemed sensible to show council that any move made by it to furnish the city with better protection would be sanctioned by the board. The board is strongly in favor of having an amendment made to the original ordinance, which will specify the kind of fenders to be adopted.

A motion was made by Mr. Taylor to the effect that no bills will be honored by that department unless submitted to the clerk prior to the last meeting of the month. This is to effect all bills but those of the policemen and firemen. Their bills will be paid up to the end of the month with the understanding that any change can be made the following month if a mistake is made in the pay roll.

When the bill of the board of public service of \$154 for the furnishing and placing of fire plugs was submitted, the board disposed of it in a hurry, stating that probably the bill could be paid if the service board would refund the safety board \$428 which was paid out of the latter's fund as salary for a man who had been working under the board of service department.

Ill of Consumption.

Lisbon, January 22.—(Special).—Dr. J. V. McLaughlin, of this city, who has been a sufferer from consumption, is in a serious condition.

CERAMIC SCHOOL FOR THIS CITY

Idea Proposed to Carnegie Technical School Director is Under Advertisement.

A VISIT WILL BE MADE

To This City By Director Hamerschlag And a Branch of the Great Institution Will Come Here if There is a Demand for It.

The committee from the Pottery association is confident that its mission, the ultimate object of which is to make East Liverpool the greatest center for education in the ceramic art, as it is now the greatest center for the industry, will ultimately prove successful.

The committee went to Pittsburgh yesterday, as announced exclusively in the News Review, and held a conference lasting two hours with Director Hamerschlag, of the Carnegie Technical Schools. The plan of the Pottery association to have the ceramic branch of the big institution established in East Liverpool was thoroughly discussed. While no actual steps in this direction will be taken until the Carnegie schools of Pittsburgh are in full swing there is a likelihood that the plan will eventually be carried out.

It was argued by the committee in behalf of the project that East Liverpool is the greatest center of the industry in the world; that more progress in the improvement of manufacturing facilities and the quality of the product had been accomplished here since the establishment of the industry 40 years ago than had been accomplished in England in 150 years; that there was every guarantee that well filled classes of pupils expecting to make their careers in the industry, and who would therefore be interested in their studies, could be secured; that these facts made East Liverpool the proper point for such an institution.

Director Hamerschlag thought that much more capable instructors could be secured for the classes in Pittsburgh, and he felt some doubt as to the necessity of establishing the pottery school at East Liverpool instead of at Pittsburgh, when the distance between the two cities is so short that it offers no real obstacle to East Liverpool students who are really desirous of studying to go there and do so. However, should the demand for a branch school be sufficient to justify its establishment, the director thought it was within the range of probability that it would be done, not only here, but at other points having special industries as well, after the Pittsburgh schools had been systematized and brought to a good working basis.

It was arranged that Director Hamerschlag should visit this city to get a close view of the conditions and this he will do within a short time.

The plans and specifications for the grading of the technical school site have been completed and will be submitted to the committee early next week. The removal of earth in excess of 50,000 yards is provided for and it is expected that the contract will be let and actual work begun early in February. Steam shovels will be used in making the excavations.

The committee is composed of W. E. Wells, general manager of the Homer Laughlin China company, of East Liverpool; Col. John N. Taylor, of the Knowles, Taylor & Knowles company, of East Liverpool; W. W. Harker, president of the Harker Pottery company, of East Liverpool; Ernest Mayer, of the Mayer Pottery company, Ltd., of Beaver Falls, and H. W. Smith, secretary of the Potters' association.

ALMOST DEMOLISHED BY A CYCLONE

Alabama Village of 300 Reported Nearly Wiped Off the Earth.

Birmingham, Ala., January 22.—(Special).—Moundsville, a village of 300 people, was almost demolished by a cyclone this morning.

Practically the entire population was killed, according to the reports received here. The wires are down.

To Be Taken to Massillon.

Lisbon, January 22.—(Special).—A permit has been received for admission of Addison Fugate, of Hanover township, to the Massillon asylum.

THE GRAND JURY MAKES REPORT

RISES AFTER INVESTIGATING 51 CASES, FINDING 39 TRUE BILLS.

The County Jail Fairly Praised and Electric Lighting Recommended.

Lisbon, January 22.—(Special).—The grand jury for the January term of court made its report shortly after 1 o'clock this afternoon and the jurors were excused from further attendance at this term of court. Following is its report:

"To the Honorable Court of Common Pleas of Columbiana County: "The grand jury for the January term of court was impaneled January 18, and after instructions from the court proceeded to investigate the cases presented.

"We investigated 51 cases and have found 39 indictments and ignored 12 cases. We examined 125 witnesses.

"In accordance with instructions from His Honor, Judge Hole, we have visited the county jail and have found it as well kept as it is possible to keep it under the conditions. We recommend to those in authority the lighting of the jail by gas or electricity.

"JOHN H. HARRIS, "Foreman."

Indictments against jail prisoners were given out this afternoon as follows:

Frank Dennis, assault and battery. Homer Richard, assault and battery. John H. Johnson, petit larceny. Tony Juran, stabbing with intent to kill.

Antonio and Paterno Carmelo, assault and battery. Peter Kessler, petit larceny. William Colledge, grand larceny.

NO MARRIAGES WITHOUT LICENSE

Senator Heinlein Has a Bill to End the Elopement Industry.

STATE CAPITAL NOTES

From a Staff Correspondent.

Columbus, Jan. 22.—Senator Heinlein, of Belmont, introduced a bill Thursday afternoon making it compulsory to secure a license before a marriage can be legally contracted. It is somewhat supplementary to the measure he introduced early this week to amend the divorce laws. The measure is as follows:

"Section 1. That section 6389 of the Revised Statutes of Ohio be amended so as to read as follows:

"Section 6389. Previous to persons being joined in marriage, a license shall be obtained for that purpose from the probate judge in the county where the female has her bona fide residence.

"Section 2. That said original section 6389 of the Revised Statutes of Ohio be and the same is hereby repealed, and this act shall take effect and be in force from and after its passage and legal authentication."

Mr. Crist's resolution making J. C. Scott, of Knox county, special messenger to the house members, was adopted by the house Thursday afternoon. Scott has been employed in the house at each session for many years and the knowledge he has acquired by long experience makes him a valuable legislative adjunct. There was considerable opposition to the resolution because of the fact that the senate already has a long list of employees. Mr. Crist led the fight for the resolution and managed to convince the majority that the services of old man Scott were almost indispensable.

Crisis McConnell, the well known newspaper man of East Liverpool, is here attending a meeting of the executive board of the Ohio Federation of Labor, of which he is treasurer. He called on the Columbiana county legislators yesterday and acquainted them with the fact that the board will adopt resolutions favoring labor legislation which will be brought to the attention of the members of the general assembly. The legislature adjourned yesterday afternoon until Monday afternoon.

Smoker Postponed.

The smoker that was to have been given last night by McKinley castle, Knights of the Golden Eagle, was postponed until next Thursday night on account of the bad weather.

A RICH HARVEST REAPED BY BURGLARS LAST NIGHT

Three Establishments Visited and Plundered, to the Value of \$300 Was Taken Away.

TWO WARRANTS OUT FOR SUSPECTED ONES

Favored by the elements and the impenetrable darkness, burglars reaped a rich harvest in the city last night, breaking into three business establishments and looting them for jewelry, money and other articles, valued at more than \$300. Suspicion rests on two well known young men of the city for one of the robberies and it is believed that the perpetrators in each instance will be caught. The places robbed were the Bon Ton store, in the Diamond; William Morrow's saloon, Sixth street, and J. M. Buckle's jewelry store on Mulberry street, East End.

Reports of the burglaries were made to the mayor at an early hour this morning and he immediately detailed officers on the cases. The biggest haul was made at Morrow's saloon, where the daring men secured \$200 worth of valuables. Mr. Morrow was convinced this morning that he knew the parties guilty of the crime at his saloon and going before the mayor had warrants issued for the arrest of Charles Ipe, who formerly acted as his bartender, and Ernest Bradley. The latter was arrested soon after and placed in jail.

In entering the saloon the burglars broke a window at the rear of the building, dropped into the basement and then broke down three doors in the cellar, which finally gave them access to the bar room. They were evidently familiar with the saloon. They went directly to the cash register, opened it and relieved it of four Eagle pins, which were set with diamonds.

Ipe was arrested this afternoon by Officer Dawson. Both he and Bradley will be given a preliminary hearing tomorrow morning on a charge of burglary.

The store of J. M. Buckle was entered from the rear and jewelry to the amount of \$100 was stolen. A window was smashed by the burglars, who went immediately to the show case containing the best jewelry and stole 17 rings and four watches. Mr. Buckle is congratulating himself over the fact that they failed to see a tray filled with diamonds, which was along side the rings.

Appraisers Appointed. Lisbon, January 22.—(Special).—On application of David S. Smith, surviving partner of Smith & Crawford, East Palestine hardware dealers, Harvey Keller, Albert Faller and L. M. Kyes have been appointed to make an inventory and place a valuation on the assets of the firm, with a schedule of debts and liabilities. Oliver B. Crawford, junior member of the firm, died some time ago.

New K. G. E. Castle. Knights of the Golden Eagle organized a new castle in Wellsville last night. After the lodge was instituted by the grand chief of the state, a social session was held. Visiting members of the order were present from the two lodges at East Liverpool.

TAYLOR STILL URGES THAT SALVAGE CORPS BE FORMED

Excellent Reasons Given For Believing It Would Be a Public Benefit.

W. L. Taylor, of the board of public safety, persists in advocating the inauguration of a salvage corps in this city. As stated previously in the News Review he does not think the condition of the city's treasury will permit of it at the present time or for some time to come, but he does think that if the matter is taken up properly there will be no trouble experienced in instituting a corps.

To a reporter of the News Review this morning Mr. Taylor said: "I am sorry that the treasury of the city is so depleted. But as the condition can not be helped at the present time there is nothing left to be done but rely on the business sense of the municipality. I believe if a canvass were made of the fire insurance companies doing business in the city it would be found that they would consent to curtailing the rate of insurance to a great degree. Of course that would be an incentive to the merchants to contribute to a fund for maintaining a salvage corps.

"I believe that the merchants, if the matter is explained to them, will agree

and valued at \$100, some money and other jewelry and then stole some expensive cigars.

The Bon Ton store was entered at about 12 o'clock and the worst feature to this case is that Officer Todd saw the men as they were preparing to break into the store, but he did not interfere as he considered it of more importance to him off to the mayor's office and report to the fire station. While he was deliberating over what he had seen, Officer Mahoney appeared on the scene and he informed him of noticing two men skulking at the rear of the Bon Ton store and wondered if it would not be wise to investigate. Mahoney and Aufderheide have been too long at the business to be fooled under such circumstances and they immediately rushed up to the store. They soon discovered that the store had been entered. Mr. Whit, proprietor of the store, stated this morning that his loss would be in the neighborhood of \$50.

The store of J. M. Buckle was entered from the rear and jewelry to the amount of \$100 was stolen. A window was smashed by the burglars, who went immediately to the show case containing the best jewelry and stole 17 rings and four watches. Mr. Buckle is congratulating himself over the fact that they failed to see a tray filled with diamonds, which was along side the rings.

Ipe was arrested this afternoon by Officer Dawson. Both he and Bradley will be given a preliminary hearing tomorrow morning on a charge of burglary.

CLARA MOORE FINED

In Telling Her Story She Confessed Having Consumed a Pint of Whisky.

Clara Moore, who was arrested Wednesday night near the toll house of the East Liverpool bridge, was given a hearing by the mayor, who fined her \$2 and costs.

While stating her case to the chief executive the woman cast some strong insinuations against the night watchman at the toll house and said he had better pay her fine. She said she drank a pint of whisky in his presence and that there were two other women in the toll house at the time.

TAXES ON STREET CARS A MATTER OVERLOOKED

Discovery Made That An Ordinance Taxing Each Car \$10 Is Not Enforced.

Another discovery was made yesterday which will result in an increase to the city's treasury, and which will go far toward replenishing the already badly depleted funds. It was found that neither the East Liverpool Railway company nor the Southside company have been paying a certain tax provided for in an ordinance passed in 1896. That is, the ordinance has not been complied with to the letter. It is believed the companies can be made to pay taxes under the ordinance amounting to several hundred dollars.

The ordinance makes it compulsory for the companies to pay \$10 per year for each car operated by them. Record of one payment only could be found yesterday. It was made by C. A. Smith in the year 1900 and amounted to \$100. If the ordinance will hold

water, and it is believed that it will, the two companies will be required to pay the tax dating back to the time the ordinance was passed.

It is estimated that the East Liverpool company operates at least 25 cars and the Southside company seven regularly. That number multiplied by 10 will mean no small amount, and when multiplied by the number of years intervening since the passage of the ordinance will aggregate considerable, quite enough to relieve the city of a big indebtedness.

Other discoveries are expected by the officials, but the one above mentioned and the one relating to the bridge fund, exclusively referred to in the News Review yesterday, are the most important, and the officials will strive to collect from both sources.

NEW CASTLE NOTES.

New Castle, Pa., January 22.—At the regular meeting of local No. 54 last week five transfer cards were granted to the following: William Parker, Richard Bloor, Thomas Lawton and John Hunter, who were discharged because they served on a committee. The local would have called the shops out unless they were reinstated, but the men would not have this, as they would sooner leave than have trouble. The sanitary men have the good wishes of local No. 54 wherever they go.

Owen Sweeney, a kilnman, was also granted a transfer card to Buffalo, as they expect to start a local there soon. Thomas Brookes, a presser at the Shenango, was granted a withdrawal card having left the trade.

There are all kinds of rumors in regard to the china works. A New Castle paper sold them to the sanitary shop, but there was nothing in it, although it would not surprise the writer, as it is a well known fact the sanitary shop wants to move up town. Any how, the china works are still closed and no signs of starting.

The Universal shop is running full blast with plenty of orders and good prospects of a steady run.

At the Shenango they are on the jump again with plenty of orders. There are two printers working day and night and other going on this week. The benches are all filled again and there are two new pressers started here.

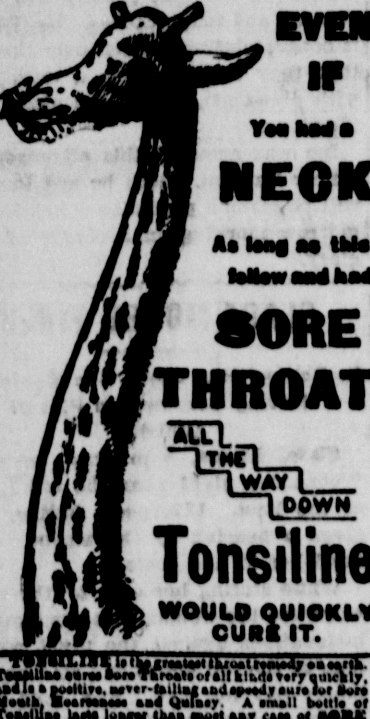

George McCarron, who was on the sick list for a few days, is back at work again.

Mrs. Jess Radcliff was taken suddenly ill down town the other evening and had to be conveyed to her home in a carriage. For a while her life was in danger and today we are glad to say she is getting all right again.

ECZEMA SETS THE SKIN ON FIRE

No disease causes so much bodily discomfort, or itches, and burns like Eczema. Beginning often with a slight redness of the skin it gradually spreads, followed by pustules or blisters from which a gummy, sticky fluid oozes which dries and scales off or forms hard looking sores and scabs. It appears on different parts of the body but oftenest upon the back, arms, hands, legs and face, and is a veritable torment at times, especially at night, when over-heated.

The cause of Eczema is a too acid and general unhealthy condition of the blood. The terrifying itching and burning is produced by the overflow through the glands and pores of the skin of the fiery poisons with which the blood-current is overloaded. While external applications, such as washes, soaps, salves and powders are soothing and cooling they do not enter into the blood itself or touch the real cause of the disease, but S. S. S. does, and purifies, enriches, and strengthens the thin acid blood and cleanses and builds up the general system, when the skin clears off and Eczema with all its terrifying symptoms disappears.

TOO MUCH WATER AT SALINEVILLE

CITY PUMPING STATION IN DANGER OF BEING FLOODED.

Live Items on Topics of General Interest in the Mining Town and Vicinity.

Salineville, January 22.—(Special.)

—Miss Ida Madison is suffering from a very sore face and head, which she received the first of the week in a collision with a heavily loaded coasting sled. She attempted to cross the street when the young folks were coasting and was run down by the coasters and injured.

Yesterday morning found the pumps at the city water works in danger of being covered up by water, owing to a big ice gorge in the creek opposite the pumping station. Engineer Hoey was busy in attempting to dislodge the gorge but his efforts were fruitless, as the water rose so rapidly that he was compelled to give up his job. The water overflowed the banks of the creek and has spread all over a ten acre field with huge cakes of floating ice. The pumping station is in no immediate danger, as only the pump could be submerged beneath the raging waters.

R. F. D. Carrier Joseph McSwiggen was somewhat timorous about attempting to cover his entire route yesterday, as the high water in several places has covered the main traveled road so that it is dangerous for man or beast.

The village marshal and mayor are complaining because there is little business in police courts. The town has been somewhat lively the past few months and for business in the department to fall so alarmingly has set the officials to wondering what might be the cause of the quiet demeanor of the usual common and frequent visitors at the village headquarters.

The village does not allow the citizen to distribute ashes on the sidewalks to keep pedestrians from slipping, and a general howl is being raised about the matter.

The Surprise Clothing House, of East Liverpool, has rented a room in the postoffice block and will open a branch store in Salineville. Its goods have arrived at the depot and will be installed at once. They will open for business Saturday.

The managers of the Dresden China company are canvassing the town's people to buy stock in the pottery. The management wants to raise \$10,000 to tide the plant along until it can get present difficulties settled. Out of 200 shares, 107 have been sold.

The wet weather put a damper on several sleighing parties that were

scheduled to leave town Wednesday evening.

The Cooper Medicine company is holding forth at the opera house this week. The people are not flocking to the entertainments as readily as they did some time ago.

Tipton Toban and Miss Effie Dunlap, of Carroll county, were quietly married the first of the week at Mechanicstown by Rev. J. Young. The couple were given a rousing reception at their home and at night were serenaded by a large crowd.

By the breaking of the dam above the New Shaft mine yesterday morning, a big ice gorge has collected under the tracks of the mining company. It was feared that the bridge might give way, so several loaded cars was run on it to hold it to its place.

AN EXCITING BATTLE

Struggle Between a Hawk and An Owl in Which the Hawk Was Killed.

Mrs. George Windle, of Sebring, yesterday witnessed an exciting battle between a sparrow hawk and an owl, in which the first named bird was killed. Mrs. Windle captured the victorious owl.

While engaged in her household duties Mrs. Windle heard what she thought were the cries of a child. Stepping outside the house she saw the desperate struggle between the two birds. The owl soon killed the sparrow hawk and tried to carry its adversary away. It was too weak to do this and was easily captured.

A DESERTED WIFE SUES FOR DIVORCE

Sad Story Told By Mrs. Emma Wright, of East Palestine, in a Petition.

Lisbon, January 22.—(Special.)—Emma Wright, of East Palestine, has filed suit in court for divorce from Landrus Wright and asks that her maiden name, Emma Post, be restored. They were married December 6, 1891, at Sanford Corners, Pa., and the only child born to them is now dead. The plaintiff charges wilful absence, gross neglect and extreme cruelty, alleging that during the last five years her husband failed to provide for her and she was compelled to maintain herself by hard work. During the last six years of their married life she says her husband would curse her and charge unfaithfulness on her part, when in fact he was unfaithful to her.

While she was sewing and keeping boarders to maintain herself the husband would require her to feed his horses and other stock while he remained away from home for days at a time. He finally deserted her and she was compelled to leave the neighborhood in which she had been living and losing all trace of her husband she has not heard from him for more than three years. C. P. Rothwell, of East Palestine, is the plaintiff's attorney.

EAST END

HER ARM BROKEN

BY A FALL ON ICE

Mrs. William Hays Met With a Serious Accident This Morning.

Mrs. William Hays, residing on High street, met with a bad accident this morning. Mrs. Hays was engaged in laying some boards about the yard to make the walking better, when she slipped and fell on the ice, breaking her right arm between the wrist and elbow. The break was a bad one. The bone protruded and Mrs. Hays suffered considerable loss of blood before it was stopped. Dr. R. J. Marshall was summoned and reduced the fracture. Mrs. Hays was shaken up considerably, but is resting as comfortably as can be expected. The condition of the ground on the hillside at present, on account of the smooth ice, makes travel dangerous and it is remarkable that more serious accidents have not occurred.

GRAND CHIEF TO ATTEND

A Notable Meeting of the Golden Eagles' Castle Will Be Held Tonight.

Grand Chief Cody, of the Knights of the Golden Eagles, from Cleveland, will be present at the regular meeting of Buckeye Castle tonight. The regular business of the lodge will be transacted, after which the meeting will give way to a general good time. The members of Hope Castle of the city proper will be present, as well as many from Wellsville and Chester. A number of the Buckeye Knights attended the instituting of a new castle in Wellsville last night. The festivities were carried on until long past midnight and many were compelled to wait for the early street cars.

Excelsior Club Dance.

The Excelsior club had a large attendance at its dance last night in spite of the bad weather. Thirty couples enjoyed dancing to the excellent music furnished. The affair took place at Larkins' hall and the members have decided to hold another dance in the near future.

Revival Full of Interest.

The protracted revival meetings of the Free Methodists in Helena continue with unabated interest. Many conversions have been made and the residents of that portion of the town speak in enthusiastic terms of the good work that is being carried on.

EAST END AFFAIRS.

Jay Pugh is suffering from a severe sore throat.

George Thompson, of Pennsylvania avenue, is on the sick list.

A boy was born to Mr. and Mrs. George Wilson this morning.

Rev. N. M. Crowe is again able to be out after an illness of a week.

Fred Cross, in charge of the decorating room at the Barberton pottery, is home on a visit.

Luther Grimes, the popular conductor, who has been very ill with typhoid fever, is recovering.

J. B. Zuber, of New York city, was the guest of C. O. Weddell yesterday, and returned home this morning.

Henry Neiminger has sold out his business on Mulberry street to M. K. Carroll, who took immediate possession.

Harker's pottery was idle today on account of the kiln hands not having any kilns empty in which to place ware.

Foreman Hickey, of the street car

force, and a number of men are engaged in making repairs to the derailing switches on Mulberry street. Mr. and Mrs. David McClurg, of Beaver, are the guests of Mr. and Mrs. Silas Mercer, of First avenue, and will spend part of next week with Chester friends.

FICTITIOUS NAMES

MAY BE BARRED

A Bill Making It Illegal to Give Such Names to Police Magistrates.

Columbus, January 22.—(Special.)—Mr. Hoiles, of Stark, introduced a bill, to impose a penalty of \$10 to \$100 fine and imprisonment from 10 to 100 days for giving a fictitious name or for any mayor, police judge, justice of the peace or other magistrate to knowingly accept on pleas before him in criminal proceedings any false or fictitious name.

This is aimed at persons caught in raids of gambling places who invariably conceal their identity by giving fictitious names, often giving the names of reputable persons.

ORDERS AND DECREES

Issued By the Court in Relation to Several Actions Which are Pending.

Lisbon, January 22.—(Special.)—In the foreclosure case of the Perpetual Savings and Loan company, of Wellsville, versus Lizzie S. and Henry Markel, judgment was rendered for \$1,758.45 for the plaintiff. If the judgment is not paid within three days the sheriff is ordered to appraise, advertise and sell a lot in East End, East Liverpool, in satisfaction of the claim.

In the case of Charles Matthews versus C. C. Connell, administrator, leave is given Mary A. Matthews and Letitia Biglee to file answers and cross petition by January 25.

The case of Peter McDewitt versus Charles Tucker has been settled at defendant's cost.

In the case of F. H. Richardson versus Albert E. Melbourne et al., leave is given to file petition instantly.

What's in a Name?

Everything is in the name when it comes to Witch Hazel Salve. E. C. DeWitt & Co., of Chicago, discovered some years ago how to make salve from Witch Hazel that is a specific for piles. San Francisco, Jan. 22.—John Alexander Dowie sailed for Australia on the steamer Sonoma.

A Timely Suggestion.

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is certain to be needed before the winter is over, and results are much more prompt and satisfactory when it is kept at hand and given as soon as the cold is contracted and before it has become settled in the system. In almost every instance a severe cold may be warded off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to children, for it contains no harmful substance. It is pleasant to take—both adults and children like it. Buy it and you will get the best. It always cures. Sold by Alvin H. Bulger.

Jubilee in Holland.

HER ARM BROKEN BY A FALL ON ICE

Mrs. William Hays Met With a Serious Accident This Morning.

Mrs. William Hays, residing on High street, met with a bad accident this morning. Mrs. Hays was engaged in laying some boards about the yard to make the walking better, when she slipped and fell on the ice, breaking her right arm between the wrist and elbow. The break was a bad one. The bone protruded and Mrs. Hays suffered considerable loss of blood before it was stopped. Dr. R. J. Marshall was summoned and reduced the fracture. Mrs. Hays was shaken up considerably, but is resting as comfortably as can be expected. The condition of the ground on the hillside at present, on account of the smooth ice, makes travel dangerous and it is remarkable that more serious accidents have not occurred.

GRAND CHIEF TO ATTEND

A Notable Meeting of the Golden Eagles' Castle Will Be Held Tonight.

Grand Chief Cody, of the Knights of the Golden Eagles, from Cleveland, will be present at the regular meeting of Buckeye Castle tonight. The regular business of the lodge will be transacted, after which the meeting will give way to a general good time. The members of Hope Castle of the city proper will be present, as well as many from Wellsville and Chester.

A number of the Buckeye Knights attended the instituting of a new castle in Wellsville last night. The festivities were carried on until long past midnight and many were compelled to wait for the early street cars.

Excelsior Club Dance.

The Excelsior club had a large attendance at its dance last night in spite of the bad weather. Thirty couples enjoyed dancing to the excellent music furnished. The affair took place at Larkins' hall and the members have decided to hold another dance in the near future.

Revival Full of Interest.

The protracted revival meetings of the Free Methodists in Helena continue with unabated interest. Many conversions have been made and the residents of that portion of the town speak in enthusiastic terms of the good work that is being carried on.

EAST END AFFAIRS.

Jay Pugh is suffering from a severe sore throat.

George Thompson, of Pennsylvania avenue, is on the sick list.

A boy was born to Mr. and Mrs. George Wilson this morning.

Rev. N. M. Crowe is again able to be out after an illness of a week.

Fred Cross, in charge of the decorating room at the Barberton pottery, is home on a visit.

Luther Grimes, the popular conductor, who has been very ill with typhoid fever, is recovering.

J. B. Zuber, of New York city, was the guest of C. O. Weddell yesterday, and returned home this morning.

Henry Neiminger has sold out his business on Mulberry street to M. K. Carroll, who took immediate possession.

Harker's pottery was idle today on account of the kiln hands not having any kilns empty in which to place ware.

Foreman Hickey, of the street car

force, and a number of men are engaged in making repairs to the derailing switches on Mulberry street. Mr. and Mrs. David McClurg, of Beaver, are the guests of Mr. and Mrs. Silas Mercer, of First avenue, and will spend part of next week with Chester friends.

FICTITIOUS NAMES MAY BE BARRED

A Bill Making It Illegal to Give Such Names to Police Magistrates.

Columbus, January 22.—(Special).—Mr. Hoiles, of Stark, introduced a bill, to impose a penalty of \$10 to \$100 fine and imprisonment from 10 to 100 days for giving a fictitious name or for any mayor, police judge, justice of the peace or other magistrate to knowingly accept on pleas before him in criminal proceedings any false or fictitious name.

This is aimed at persons caught in raids of gambling places who invariably conceal their identity by giving fictitious names, often giving the names of reputable persons.

ORDERS AND DECREES

Issued By the Court in Relation to Several Actions Which are Pending.

Lisbon, January 22.—(Special).—In the foreclosure case of the Perpetual Savings and Loan company, of Wellsville, versus Lizzie S. and Henry Markel, judgment was rendered for \$1,758.45 for the plaintiff. If the judgment is not paid within three days the sheriff is ordered to appraise, advertise and sell a lot in East End, East Liverpool, in satisfaction of the claim.

In the case of Charles Matthews versus C. C. Connell, administrator, leave is given Mary A. Matthews and Letitia Biglee to file answers and cross petition by January 25.

The case of Peter McDewitt versus Charles Tucker has been settled at defendant's cost.

In the case of F. H. Richardson versus Albert E. Melbourne et al., leave is given to file petition instant.

What's In a Name?

Everything is in the name when it comes to Witch Hazel Salve. E. C. DeWitt & Co., of Chicago, discovered some years ago how to make salve from Witch Hazel that is a specific for piles. For blind, bleeding and itching and protruding piles, eczema, cuts, burns, bruises and all skin diseases DeWitt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's—the genuine. Sold by Alvin H. Bulger (only).

A Timely Suggestion.

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is certain to be needed before the winter is over, and results are much more prompt and satisfactory when it is kept at hand and given as soon as the cold is contracted and before it has become settled in the system. In almost every instance a severe cold may be ward off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to children, for it contains no harmful substance. It is pleasant to take—both adults and children like it. Buy it and you will get the best. It always cures. Sold by Alvin H. Bulger.

The proposition urged upon the directors of the Carnegie technical school at Pittsburgh, that the ceramic department be located in East Liverpool, has much to commend it, and if carried out would mean much to the institution, as well as to East Liverpool. Of course it would be easy to establish a pottery, or a few pottery kilns, in Pittsburgh, where nothing of that sort now exists. But to say that students, through the inspection of such a plant, could learn as much about pottery making as they could in a city where that art is the chief industry, is manifestly absurd. If the Carnegie technical school is to have students in ceramics, they will doubtless come to East Liverpool when they want to learn something practical, for here they could pick up more actual knowledge in a week than they could in months of study outside a pottery manufacturing center. East Liverpool is the proper location for a ceramic school, as Andrew Carnegie, a man of practical common sense and excellent judgment, can easily convince himself if he looks into the matter. The parent institution, appropriately enough, may be in Pittsburgh, along with the other schools for useful arts, but the department of theory and practice ought to be in this city, in order to be most useful. The Pottery association and all others interested in the advancement of the pottery industry should continue to urge this fact upon those in charge of the Carnegie institution.

Senator Heinlein's bill providing that no woman can be married in Ohio unless she is a bona fide resident of the county in which the marriage license is secured would probably deprive the justices and the "marrying parsons" of a few fees, but it would prevent elopements from other states and cut down the divorce business.

The abolition of spring elections will not be encouraged by the professional politicians. The people in general, however, are likely to take to it kindly. It has economy to recommend it, and it is difficult to see why just as good government cannot be secured when the change is effected, as at present.

The way to keep the sidewalks free of ice is to shovel off the snow after every storm. The thing is simple, but the board of public service has not yet succeeded in convincing property owners of the necessity and importance of combining theory and practice.

The idea of a salvage corps in East Liverpool is a good one to encourage. It would not cost much to maintain it, and it would have a chance at every fire to pay for itself ten times over.

More Crisis consistency. The yarn.

which that paper started, to the effect that Chief Wyman was about to sign, it now ridicules and pronounces "Fiction." For once the Weeping Sister has sized up one of her news items correctly.

Those eastern journals which speak of the Hanna boom as the "Ohio idea" are badly misinformed. The Ohio idea is that Senator Hanna tells the truth when he declares he is not a candidate.

There are millions of bacteria in every glass of Columbus water, according to experts. But several of the legislators are likely never to find it out.

If we had a navigable Ohio, it would not be suffered to freeze up. This would save a lot of worry as well as danger to life and property.

If there is any bridge money or other money coming to East Liverpool, the city should have it. She needs it in her business.

How long before the penitentiary doors will close on the burglars now operating in East Liverpool?

DAMAGE AND FEAR CAUSED BY RACING RIVER

huge mass was in such a position as to protect the boats from other smaller cakes. All the occupants believe this to be a miracle that saved their homes.

The boat owned by William Pickens was mashed to some extent and those owned by George Willis and John Wright were pushed out of the water. Charles Bishop's boat, at the pumping station, was badly damaged.

The wharfbat was pushed out of the water, but escaped without serious damage. The heavy stage, by which teams reach the wharfbat, had been pulled onto the shore nearby. Had the boat been pushed against it, much damage would have resulted. The stage was removed yesterday evening and Captain Martinill is satisfied with the outlook. Much work was necessary at the Pilgrim coal float.

The movement continued for an hour, then the gorge closed again. Around the Southside bridge the cakes were piled up five or six feet high.

THE FIRST MOVEMENT OF THE RIVER ICE

The first movement of the ice was barely perceptible in the West End, as there was a gorge above and the ice piled up. When the run commenced at 6 o'clock, however, a number of shanty boats were crushed and jammed against the bank. The occupants barely had time to make their way to shore and it was not until some time later that they ventured back to rescue their household effects. Fortunately the shore ice held and none of the boats were carried away, though several of them sank. Among the boats damaged are those owned by William Welch, Mrs. Linnie Mann, Simon Haight and John Brighthouse.

After 6 o'clock the movement was continuous. As soon as the ice began to move freely the danger for the present at least was practically over. From a point near the Southside bridge the current sweeps toward the West Virginia shore. At some points the ice is still intact almost all the way across the river, there being an open space not more than 100 feet wide. The ice will be dislodged as the river rises.

The wharfbat and the Pilgrim coal float were surrounded by shore ice until late this afternoon, but no danger is apprehended when it moves out. Captain Martinill was so well satisfied last night with the outlook that he and his wife remained on the boat and no watch was kept.

The shanty boat of John Green, mentioned above, was carried away in the second movement of the ice, but the other boats near came through without damage and are now practically out of danger.

The packet boat T. M. Bayne was cut down by the ice at Steubenville this morning and is thought to be a complete loss. The boat has been in harbor there for more than a month, and though the danger was known, none of the machinery or furnishings was removed. When the ice started to move the boat was caught in such a way that she careened over on her side. It is doubtful if she can be righted and is probably a total loss.

WELLSVILLE IS PREPARING

RESIDENTS GETTING READY FOR A RUSH OF WATER.

Little Yellow Creek Threatens to inundate the Lowlands—Factories in Danger.

Preparing for a flood appeared to be the sole occupation of the residents of the low lands of Wellsville today.

Reports from the upper Ohio valley was that a flood that would equal or exceed that of 1884 caused no little apprehension throughout the city. During the morning owners of factories had men removing materials to places of safety, they claiming that if a flood did result they would be prepared for it.

Materials from the Shoub paint works were removed in part to the office of the company on Main street. Residents in the low lands began to remove furniture from their homes and to the upper floors, and in some instances furniture was removed from the houses.

Water is backing up in Little Yellow creek and it is expected that before night or during the evening all the low lands in that section will be submerged. However, no damage if

any will be caused by this. A continued rise in the river will increase the volume of water in the east end of Wellsville, and this is what will result in damage to property.

The Pioneer pottery, Stevenson's foundry, McNicol & Smith's pottery and the Carroll-Porter plant will be affected by an unusual high stage of water.

Officials of the C. & P. late this morning issued a statement to the effect that officials of the company at Pittsburg did not look for more than 20 feet of water in the Ohio river. Should the prediction prove true this part of the Ohio valley will fare better than has been anticipated. However, the company is preparing to take care of their property all along the river division, from Rochester to Belaire.

A rise of 10 feet or more will stop street railway traffic between Wellsville and East Liverpool, as it will be impossible for cars to run through the back water which will form in the east end of Wellsville.

THE FLOOD CAUSES SERIOUS SITUATION

TRESTLES AND WIRES BADLY DAMAGED AT LISBON.

It is Believed the Worst is Yet to Come—Much Ice on the Move.

Lisbon, January 22.—(Special.)—The Middle Fork of the Beaver in Lisbon is on a rampage, water having

risen to an unusual height. The ice broke yesterday afternoon and a big gorge was formed at the ripple just south of the P. L. & W. station. During the night this mass of ice was carried away by the rise of water, leaving the American-Bell and Telegraph company's line in a bad way. The line crosses the creek at that point. Two poles were snapped off and left dangling from the wires.

This system is a direct line from New York to Chicago. A force came from Pittsburg this morning to repair the damage. The poles carry about 20 wires. One of the poles of the Columbiana County Telephone company, crossing the creek in that vicinity, was also broken.

The large trestle spanning the creek at the McKinley coal works north of town is partly down, but the guy wires are keeping it from being carried away. The trestle is about 70 feet long. It is reported that the trestle at the Keystone Fire Proofing company's plant a few miles further up the stream has been swept away. Timbers and pieces of frame work have been floating down.

The worst is yet to be feared, as the ice has not yet come down from the Teegarden dam, six or seven miles up the creek, and is still on at the Harbaugh dam, in the west end of Lisbon, where, being flooded for skating purposes, it is nearly two feet thick.

The stream has risen about three feet since yesterday afternoon.

At Elkton, a village four miles east, the creek was higher at noon today than for six years, and the water was not receding any. The village is partly submerged. Among the buildings in the portion under water is the post-office, the floor of which is covered with several inches of water. In 1861 occurred the most disastrous flood in the history of Elkton, several houses being washed away and five people drowned in that year. Nothing like a repetition of that disaster is anticipated.

This afternoon part of the New Lisbon Gas company's plant, part of the water works pumping station and part of the Thomas China company's plant are under water.

Narrow Escape from Drowning for a Family That Was Moving.

A family by the name of Potts, who resided near Mill Creek, in moving from a small farm near there to the East End, East Liverpool, met with a misfortune in which death was narrowly averted. The sled on which the moving was being hauled was also occupied by the driver, Mr. Glenn, Mr. and Mrs. Potts and infant child and Mrs. Potts' mother, a very aged lady.

On driving onto the bridge that spans Little Blue, the runners of the sled slipped beyond control and the sled and contents, with the occupants,

Edward Snyder Meets With Serious Injury While Looking After His Property.

Edward Snyder is the greatest sufferer here through the breaking up of the ice gorges. Snyder is the owner of a small boat, not yet completed, moored a short distance below the wharfbat, and while working to save it from the ice, he fell and sustained injuries of a very serious nature.

Snyder was walking along the gunwale of the boat and stumbled and fell, striking the ice five or six feet below on his left side. His left ankle was broken and a rib on his left side was broken. The injured man was taken to the private hospital of Dr. William J. Taylor, on Union street, where his injuries were cared for. Although badly hurt and in great

The proposition urged upon the di-
rectors of the Carnegie technical
school at Pittsburgh, that the ceramic
department be located in East Liver-
pool, has much to commend it, and if
carried out would mean much to the
institution, as well as to East Liver-
pool. Of course it would be easy to
establish a pottery, or a few pottery
kilns, in Pittsburgh, where nothing of
that sort now exists. But to say that
students, through the inspection of
such a plant, could learn as much about
pottery making as they could in a city
where that art is the chief industry, is
manifestly absurd. If the Carnegie
technical school is to have students in
ceramics, they will doubtless come to
East Liverpool when they want to
learn something practical, for here
they could pick up more actual knowl-
edge in a week than they could in
months of study outside a pottery
manufacturing center. East Liverpool
is the proper location for a ceramic
school, as Andrew Carnegie, a man of
practical common sense and excellent
judgment, can easily convince himself
if he looks into the matter. The par-
ent institution, appropriately enough,
may be in Pittsburgh, along with the
other schools for useful arts, but the
department of theory and practice
ought to be in this city, in order to be
most useful. The Pottery association
and all others interested in the ad-
vancement of the pottery industry
should continue to urge this fact upon
those in charge of the Carnegie insti-
tution.

Senator Heinlein's bill providing
that no woman can be married in Ohio
unless she is a bona fide resident of
the county in which the marriage li-
cense is secured would probably de-
prive the justices and the "marrying
parsons" of a few fees, but it would
prevent elopements from other states
and cut down the divorce business.

The abolition of spring elections
will not be encouraged by the pro-
fessional politicians. The people in
general, however, are likely to take
to it kindly. It has economy to recom-
mend it, and it is difficult to see why
just as good government cannot be se-
cured when the change is effected, as
at present.

The way to keep the sidewalks free
of ice is to shovel off the snow after
every storm. The thing is simple, but
the board of public service has not yet
succeeded in convincing property own-
ers of the necessity and importance of
combining theory and practice.

The idea of a salvage corps in East
Liverpool is a good one to encourage.
It would not cost much to maintain it,
and it would have a chance at every
fire to pay for itself ten times over.

More Crisis consistency. The yarn.

which that paper started, to the ef-
fect that Chief Wyman was about to
sign, it now ridicules and pronounces
"Fiction." For once the Weeping Sis-
ter has sized up one of her news items
correctly.

Those eastern journals which speak
of the Hanna boom as the "Ohio idea"
are badly misinformed. The Ohio idea
is that Senator Hanna tells the truth
when he declares he is not a candi-
date.

There are millions of bacteria in
every glass of Columbus water, ac-
cording to experts. But several of the
legislators are likely never to find it
out.

If we had a navigable Ohio, it would
not be suffered to freeze up. This
would save a lot of worry as well as
danger to life and property.

If there is any bridge money or other
money coming to East Liverpool, the
city should have it. She needs it in
her business.

DAMAGE AND FEAR CAUSED BY RACING RIVER

huge mass was in such a position as
to protect the boats from other smaller
cakes. All the occupants believe this
to be a miracle that saved their homes.

The boat owned by William Pickens
was mashed to some extent and those
owned by George Willis and John
Wright were pushed out of the water.
Charles Bishop's boat, at the pumping
station, was badly damaged.

The wharfbat was pushed out of
the water, but escaped without serious
damage. The heavy stage, by which
teams reach the wharfbat, had been
pulled onto the shore nearby. Had
the boat been pushed against it, much
damage would have resulted. The
stage was removed yesterday evening
and Captain Martindill is satisfied with
the outlook. Much work was neces-
sary at the Pilgrim coal float.

The movement continued for an
hour, then the gorge closed again.
Around the Southside bridge the cakes
were piled up five or six feet high.
THE FIRST MOVEMENT

OF THE RIVER ICE

The first movement of the ice was
barely perceptible in the West End, as
there was a gorge above and the ice
piled up. When the run commenced
at 6 o'clock, however, a number of
shanty boats were crushed and jammed
against the bank. The occupants
barely had time to make their way to
shore and it was not until some time
later that they ventured back to re-
sume their household effects. Fortu-
nately the shore ice held and none of
the boats were carried away, though
several of them sank. Among the
boats damaged are those owned by
William Welch, Mrs. Linnie Mann, Si-
mon Hought and John Brighthouse.

After 6 o'clock the movement was
continuous. As soon as the ice began
to move freely the danger for the pre-
sent at least was practically over. From
a point near the Southside bridge the
current sweeps toward the West Vir-
ginia shore. At some points the ice
is still intact almost all the way across
the river, there being an open space
not more than 100 feet wide. The ice
will be dislodged as the river rises.

The wharfbat and the Pilgrim coal
float were surrounded by shore ice
until late this afternoon, but no danger
is apprehended when it moves out.
Captain Martindill was so well satis-
fied last night with the outlook that
he and his wife remained on the boat
and no watch was kept.

The shanty boat of John Green, men-
tioned above, was carried away in the
second movement of the ice, but the
other boats near came through without
damage and are now practically out
of danger.

The packet boat T. M. Bayne was cut
down by the ice at Steubenville this
morning and is thought to be a com-
plete loss. The boat has been in har-
bor there for more than a month, and
though the danger was known, none
of the machinery or furnishings was
removed. When the ice started to
move the boat was caught in such a
way that she careened over on her
side. It is doubtful if she can be
righted and is probably a total loss.

WELLSVILLE IS PREPARING

RESIDENTS GETTING READY FOR
A RUSH OF WATER.

Little Yellow Creek Threatens to In-
undate the Lowlands—Fac-
tories in Danger.

Preparing for a flood appeared to be
the sole occupation of the residents of
the low lands of Wellsville today.

Reports from the upper Ohio valley
was that a flood that would equal or
exceed that of 1884 caused no little ap-
prehension throughout the city. Dur-
ing the morning owners of factories
had men removing materials to places
of safety, they claiming that if a flood
did result they would be prepared for
it.

Materials from the Shoup paint
works were removed in part to the
office of the company on Main street.
Residents in the low lands began to
remove furniture from their homes
and to the upper floors, and in some
instances furniture was removed from
the houses.

Water is backing up in Little Yel-
low creek and it is expected that be-
fore night or during the evening all
the low lands in that section will be
submerged. However, no damage if

any will be caused by this. A contin-
ued rise in the river will increase the
volume of water in the east end of
Wellsville, and this is what will result
in damage to property.

The Pioneer pottery, Stevenson's
foundry, McNicol & Smith's pottery
and the Carroll-Porter plant will be af-
fected by an unusual high stage of
water.

Officials of the C. & P. late this
morning issued a statement to the ef-
fect that officials of the company at
Pittsburg did not look for more than
20 feet of water in the Ohio river.

Should the prediction prove true
this part of the Ohio valley will fare
better than has been anticipated. How-
ever, the company is preparing to take
care of their property all along the
river division, from Rochester to Bel-
laire.

A rise of 10 feet or more will stop
street railway traffic between Wells-
ville and East Liverpool, as it will
be impossible for cars to run through
the back water which will form in the
east end of Wellsville.

THE FLOOD CAUSES SERIOUS SITUATION

TRESTLES AND WIRES BADLY
DAMAGED AT LISBON.

It is Believed the Worst is Yet to
Come—Much Ice on the
Move.

Lisbon, January 22.—(Special).—
The Middle Fork of the Beaver in
Lisbon is on a rampage, water having

risen to an unusual height. The ice
broke yesterday afternoon and a big
gorge was formed at the ripple just
south of the P. L. & W. station. Dur-
ing the night this mass of ice was
carried away by the rise of water, leav-
ing the American-Bell and Telegraph
company's line in a bad way. The line
crosses the creek at that point. Two
poles were snapped off and left danc-
ing from the wires.

This system is a direct line from
New York to Chicago. A force came
from Pittsburgh this morning to repair
the damage. The poles carry about
20 wires. One of the poles of the Co-
lumbiana County Telephone company,
crossing the creek in that vicinity, was
also broken.

The large trestle spanning the creek
at the McKinley coal works north of
town is partly down, but the guy wires
are keeping it from being carried
away. The trestle is about 70 feet
long. It is reported that the trestle
at the Keystone Fire Proofing com-
pany's plant a few miles further up
the stream has been swept away. Tim-
bers and pieces of frame work have
been floating down.

The worst is yet to be feared, as the
ice has not yet come down from the
Teegarden dam, six or seven miles up
the creek, and is still on at the Har-
baugh dam, in the west end of Lisbon,
where, being flooded for skating pur-
poses, it is nearly two feet thick.

The stream has risen about three
feet since yesterday afternoon.

At Elkton, a village four miles east,
the creek was higher at noon today
than for six years, and the water was
not receding any. The village is par-
tially submerged. Among the buildings
in the portion under water is the post-
office, the floor of which is covered
with several inches of water. In 1861
occurred the most disastrous flood in
the history of Elkton, several houses
being washed away and five people
drowned in that year. Nothing like a
repetition of that disaster is antici-
pated.

This afternoon part of the New Lis-
bon Gas company's plant, part of the
water works pumping station and part
of the Thomas China company's plant
are under water.

Injury While Looking After
His Property.

Edward Snyder is the greatest suf-

the ice gorges. Snyder is the owner
of a small boat, not yet completed,
moored a short distance below the
wharfbat, and while working to save
it from the ice, he fell and sustained
injuries of a very serious nature.

Snyder was walking along the gun-
wale of the boat and stumbled and
fell, striking the ice five or six feet
below on his left side. His left ankle
was broken and a rib on his left side
was broken. The injured man was
taken to the rivate hospital of Dr.

where his injuries were cared for.

SOUTH SIDE

PETER'S LAKE

HAS VANISHED

One Very Good Result Accomplished
By the Rise of Water
Yesterday.

Peter's lake, situated at Fifth street and Indiana avenue, which has been the subject of much discussion the past two years, disappeared as if by magic some time last night. The rain and thaw of the last few days had sent an enormous volume of water into the low ground in that vicinity, and the residents last night were excited over the damage it might do to the handsome new edifice of the Presbyterian church, now building. Precautions were taken all day yesterday to keep the water from getting into the cellar. An idea of the force of the water can be gained from the fact that it cut its way through Indiana avenue across to the low land to the opposite side of the street, making a hole in the street of about 15 feet in width.

The water from the lakerun down onto Carolina avenue and a generous proportion of it made its way into the plumbing shop of T. C. King & Co. The damage resulting to Indiana avenue by the washout will be considerable, but all complaints in regard to the nuisance will be at an end until the street is again filled up.

SCHOOLGIRL HAD NARROW ESCAPE

Helen Winder, 8 Years Old, Came
Near Falling Into a Swollen Creek.

Helen Winder, an 8-year-old school girl, narrowly missed being drowned while coming from school yesterday afternoon. The girl was crossing on a tree that serves as a bridge over Cunningham's run and when about midway across was noticed to stagger and fall fainting on the bridge.

Miss Rachael Baxter, one of the teachers in the lower school, noticed the serious predicament of the girl and hurried to her assistance, none too soon, as the girl was about to roll from the log into the angry waters of the creek, which would undoubtedly have swept her to death. She was carried from the bridge and revived enough in a short time to leave for home.

The log that the children have to pass over has long been a cause for alarm, it being in no way protected by a railing and the pupils attending the low school are the smaller pupils of the town.

ONE ELECTION EVERY YEAR

An Argument to Prove That It Is
Enough for People of
Ohio.

ECONOMY IN ITS FAVOR

Hard to Understand Why Municipal
and General Elections Should Be
Held at Different Times—Politicians
Likely to Cling to Old Idea.

It might as well be admitted that the movement to abolish spring elections in Ohio is an effort to thin out the Democratic mayors and other city officials in this state. It could accurately be styled a bill to promote party regularity and induce Republicans to draw party lines more closely and uniformly in local politics. The point of the whole matter is the belief that if municipal offices were filled in fall elections the intensity of party feeling roused by state and national campaigns would prevent a good deal of the independence shown by Ohio Republicans in bolting their party tickets and staying away from the polls in the spring.

But unless it can be demonstrated that spring elections promote good government in cities and villages, then there is no sound reason why half the people of the state should be compelled to go through two campaigns every year. Economy is on the side

PETER'S LAKE HAS VANISHED

One Very Good Result Accomplished By the Rise of Water Yesterday.

Peter's lake, situated at Fifth street and Indiana avenue, which has been the subject of much discussion the past two years, disappeared as if by magic some time last night. The rain and thaw of the last few days had sent an enormous volume of water into the low ground in that vicinity, and the residents last night were excited over the damage it might do to the handsome new edifice of the Presbyterian church, now building. Precautions were taken all day yesterday to keep the water from getting into the cellar. An idea of the force of the water can be gained from the fact that it cut its way through Indiana avenue across to the low land to the opposite side of the street, making a hole in the street of about 15 feet in width.

The water from the lakerun down onto Carolina avenue and a generous proportion of it made its way into the plumbing shop of T. C. King & Co. The damage resulting to Indiana avenue by the washout will be considerable, but all complaints in regard to the nuisance will be at an end until the street is again filled up.

SCHOOLGIRL HAD NARROW ESCAPE

Helen Winder, 8 Years Old, Came Near Falling Into a Swollen Creek.

Helen Winder, an 8-year-old school girl, narrowly missed being drowned while coming from school yesterday afternoon. The girl was crossing on a tree that serves as a bridge over Cunningham's run and when about midway across was noticed to stagger and fall fainting on the bridge.

Miss Rachael Baxter, one of the teachers in the lower school, noticed the serious predicament of the girl and hurried to her assistance, none too soon, as the girl was about to roll from the log into the angry waters of the creek, which would undoubtedly have swept her to death. She was carried from the bridge and revived enough in a short time to leave for home.

The log that the children have to pass over has long been a cause for alarm, it being in no way protected by a railing and the pupils attending the low school are the smaller pupils of the town.

ONE ELECTION EVERY YEAR

An Argument to Prove That It Is Enough for People of Ohio.

ECONOMY IN ITS FAVOR

Hard to Understand Why Municipal and General Elections Should Be Held at Different Times—Politicians Likely to Cling to Old Idea.

It might as well be admitted that the movement to abolish spring elections in Ohio is an effort to thin out the Democratic mayors and other city officials in this state. It could accurately be styled a bill to promote party regularity and induce Republicans to draw party lines more closely and uniformly in local politics. The point of the whole matter is the belief that if municipal offices were filled in fall elections the intensity of party feeling roused by state and national campaigns would prevent a good deal of the independence shown by Ohio Republicans in bolting their party tickets and staying away from the polls in the spring.

But unless it can be demonstrated that spring elections promote good government in cities and villages, then there is no sound reason why half the people of the state should be compelled to go through two campaigns every year. Economy is on the side

Think Twice

Before you speak of buying Life Insurance.

Then talk with

Geo. H. Owen & Co.

About the Annual Dividend Policies of the Northwestern Mutual Life Insurance Co.

The experience of states in which all voting is done on the same day indicates that voters in cities refuse to be bound by party lines any more than they are held in other states where the municipalities choose their officials in the spring. Not long ago Providence, R. I., elected a Democratic mayor by some 6,000 majority the same day that the city went Republican in voting for a congressman and some state officers. In New York the cities used to cut local tickets to pieces on the same day that they went strongly for one party or the other, in general elections.

It is not necessary, however, to go outside of Ohio for evidence of this kind. Consider the irregularity in recent voting for county officials in counties containing large cities, although all such places have voted for these candidates at state elections. Cleveland has not been more independent and uncertain in choosing municipal officers than filling county offices. It is hard to prove any difference between spring and fall, in that respect.

The habit of independent voting in local contests, making candidates count more than party lines, is steadily growing, no matter whether all elections are held in the fall or city elections separately in the spring. It is a salutary tendency, all things considered, and it cannot be checked by any device such as the change of the time for local elections.

Therefore, it is hard to see why the municipalities of Ohio should be subjected to the expense and trouble of two campaigns every year instead of one. Unless a positive reason exists for such a burden upon the cities and villages of the state, the spring election should be abolished.

REALM OF SPORTS

IN LIEU OF FINES

A Texas Umpire Punched Meal Tickets and Stopped Trouble in the Game.

Representative Cooper, of Texas, was telling of the vicissitudes of the Texas Baseball league in the days when he was interested in the national game.

"We had a league one summer," said Cooper, "composed of Texas towns, but the people were too busy to go to ball games, or the ball playing wasn't good enough, or something else. At any rate, along in June the clubs got into hard straits.

"The players had not been paid for weeks and none of them had a cent. They kept on playing because the managers kept them supplied with meal tickets, and there was nothing else for them to do if they wanted to eat.

"A new umpire came down to Dallas one time and the players had fun with him. He grew indignant and began plastering on fines. The players merely laughed at him. Before the game was over he had fined everybody about \$100 apiece and nobody cared, for there wasn't \$100 in the combined treasuries of the league.

"That night the umpire saw the meal tickets used. Next day he provided himself with a conductor's punch and went into the game. A player was impatient.

"Here you," said the umpire, "come here."

"The player walked over, grinning. "Let me see your meal ticket," said the umpire. The player handed it out. Then the umpire produced his punch and punched a lot of holes.

"I'll fine you six meals," he said. "Now get back into the game and behave yourself or you won't eat again this week."

"After that there was no more trouble."

No More Fights in Boston.

In connection with the arrest of Joe Choynski and Kid Carter, who boxed at the Criterion club in Boston, on the charge of mutual assault, Chairman William H. H. Emmons, of the police board, announced that it was the intention of the board to purge the city of what he called prize fighting. When Choynski and Carter and the others who were arrested on the charge of aiding and abetting a prize fight, appeared in the municipal court, their cases were continued at their request.

No Shooting for Six Years.

If Senator Berry, of Van Wert, has his way, the squirrel and quail of Ohio will live in peace and comparative safety for the next six years. Senator Berry is preparing a bill, which he will soon introduce, which seeks to amend the game laws to the above effect. Rabbits are considered a pest by the senator and they will be placed on the open list and may be killed at any time if the bill becomes a law.

Bergen May Jump.

Members of the Cincinnati team believe that Billy Bergen will jump the National League and play ball with the outlaw league in California next season. While the past season was drawing to a close Bergen confided to several of his teammates that it was his last year in the National league and that he had decided to play out on the coast next season.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Halls Catarrh Cure, manufactured by F. J. Each of these 1,000 druggists say that Mucu-tone will cure Catarrh—They go beyond this—They say if it does not benefit you, all the money you have spent for this remedy will be refunded.

This means that these druggists are willing to stake their reputation on their judgment.

Could we, as one of the 1000, afford to give away free trial bottles if we did not know absolutely that it would benefit you?

You know, that without proof positive of the curative effect of this remedy, we, living right in your community would not dare make such a statement.

Our Offer:

We want every sufferer to know from actual experience that Mucu-Tone will positively cure catarrh, no matter where located or how long standing.

We will give absolutely free to every catarrh sufferer who deals at our store, a bottle (regular size) of Mucu-Tone, if they will fill in this coupon and send it to the United Drug Company, Boston, Mass.

REALM OF SPORTS

IN LIEU OF FINES

A Texas Umpire Punched Meal Tickets and Stopped Trouble in the Game.

Representative Cooper, of Texas, was telling of the vicissitudes of the Texas Baseball league in the days when he was interested in the national game.

"We had a league one summer," said Cooper, "composed of Texas towns, but the people were too busy to go to ball games, or the ball playing wasn't good enough, or something else. At any rate, along in June the clubs got into hard straits.

"The players had not been paid for weeks and none of them had a cent. They kept on playing because the managers kept them supplied with meal tickets, and there was nothing else for them to do if they wanted to eat.

"A new umpire came down to Dallas one time and the players had fun with him. He grew indignant and began plastering on fines. The players merely laughed at him. Before the game was over he had fined everybody about \$100 apiece and nobody cared, for there wasn't \$100 in the combined treasuries of the league.

"That night the umpire saw the meal tickets used. Next day he provided himself with a conductor's punch and went into the game. A player was impatient.

"Here you," said the umpire, "come here."

"The player walked over, grinning. 'Let me see your meal ticket,' said the umpire. The player handed it out. Then the umpire produced his punch and punched a lot of holes.

"I'll fine you six meals," he said. 'Now get back into the game and behave yourself or you won't eat again this week.'

"After that there was no more trouble."

No More Fights in Boston.

In connection with the arrest of Joe Choynski and Kid Carter, who boxed at the Criterion club in Boston, on the charge of mutual assault, Chairman William H. H. Emmons, of the police board, announced that it was the intention of the board to purge the city of what he called prize fighting. When Choynski and Carter and the others who were arrested on the charge of aiding and abetting a prize fight, appeared in the municipal court, their cases were continued at their request.

No Shooting for Six Years.

If Senator Berry, of Van Wert, has his way, the squirrel and quail of Ohio will live in peace and comparative safety for the next six years. Senator Berry is preparing a bill, which he will soon introduce, which seeks to amend the game laws to the above effect. Rabbits are considered a pest by the senator and they will be placed on the open list and may be killed at any time if the bill becomes a law.

Bergen May Jump.

Members of the Cincinnati team believe that Billy Bergen will jump the National league and play ball with the outlaw league in California next season. While the past season was drawing to a close Bergen confided to several of his teammates that it was his last year in the National league and that he had decided to play out on the coast next season.

Society Women

The Grand-Niece of
U. S. PRESIDENT JAMES K. POLK,
MRS. IDA ROSER,
 Induced to relate Her Experience for Benefit of Other Women.

"DEAR MRS. PINKHAM:—I have been married for nearly two years, and so far have not been blessed with a child. I have, however, suffered with a complication of female troubles and painful menstruation, until very recently.

"The value of **Lydia E. Pinkham's Vegetable Compound** was called to my attention by an intimate friend, whose life had simply been a torture with inflammation and ulceration, and a few bottles of your Compound cured her; she can hardly believe it herself to-day, she enjoys such blessed health. I took four bottles of your Compound and consider myself cured. I am once more in fine health and spirits; my domestic and official duties all seem easy now, for I feel so strong I can do three times what I used to do. You have a host of friends in Denver, and among the best count, Yours gratefully,
 "MRS. IDA L. ROSER, 326 E. 18th Ave, Denver, Col."

Lydia E. Pinkham's Vegetable Compound

seems to be the universal woman's medicine for the high and low, rich and poor; and why not? The organization of all women is alike, and the society woman is just as susceptible to the ills of womankind as are her less favored sisters, but owing to their inherent distaste for advertised articles will resort to all other methods for a cure first. Yet it is a fact worth recording that Mrs. Pinkham is constantly receiving letters from women of high social position, saying as a last resort and without any faith, they tried **Lydia E. Pinkham's Vegetable Compound** and were completely cured by it. She actually has thousands of such letters.

Mountains of gold could not purchase such testimony—or take the place of the health and happiness which **Lydia E. Pinkham's Vegetable Compound** brought to these women. No woman should suffer with such a remedy at hand.

SPECIAL ADVICE TO YOUNG WOMEN FREE.

From a vast experience in treating female ills, extending over 20 years, Mrs. Pinkham has gained a knowledge which is of untold value to every ailing young woman. Her advice is very sure to help. If you need such help, write her. She will be glad to answer you confidentially and free of charge. Address Lynn, Mass.

I therefore let you know that I shall recommend them to any one suffering from such troubles."—

COUNCIL TO REGULATE THE SALE OF COAL

Many Customers Complain of Short Weight—The Amount Purchased Often Guessed At.

That customers are receiving short weight in coal, or paying for less coal than they receive, is a complaint Wells-ville coal dealers hear whenever they deliver a load of coal. It is thought perhaps council at a future meeting will be asked to pass an ordinance relating to the matter.

It appears that almost all coal used in Wellsville is from mines and yards near the city where there are no scales. Only a guess is made by the driver or dealer as to how much coal is on a wagon after it is loaded.

As the coal is taken direct to where it has been ordered, about the first question that greets the driver is—"Where is the ticket showing how much coal you have on the wagon?"

Inasmuch as the driver holds no weight ticket, objection is made at once as to the amount of coal. Frequently the load is refused. Generally more coal is on the wagon than the party has ordered, but it is hard to convince some people of this fact.

G. J. Miles, one of the oldest coal dealers in the city, called the attention of Chief of Police Houser to this matter yesterday, with the request that he present it to Mayor Fogo. It is the desire of Mr. Miles that the mayor ask council, or make some arrangement where it will be required that all coal be brought into Wells-ville on wagons be weight before it is delivered.

There is a large scale at city hall, and some coal dealers would like to have their coal weighed on this before delivery.

A LODGE OF EAGLES

Over 40 Names Already Secured And an Aerie Will Soon Be Established.

Within the next two weeks a new lodge of Eagles will be organized in Wellsville. The organizing is being done under the direction of Samuel Brubaker, of Third street.

It is said that while 50 names are required before a charter is obtained, over 40 of these have been secured.

which makes the fact certain that the lodge will be formed.

Quarters are expected to be obtained in the Whittaker block, Third street, although the ultimate intention of the organizers of the lodge is to obtain a permanent home later, by the possible erection of a building of their own.

It is announced that Mayor Fogo has agreed to assist the new lodge in all ways possible in the proposed carnival the lodge proposes to father during the summer. While plans are but in infancy, those at the head of the movement say the carnival is almost a certainty.

RUNAWAY CARS CAUSED A WRECK

A Derailment at Alliance Which the C. & P. Crew Assisted in Remediating.

Four runaway cars of the Lake Erie, Alliance & Western railroad, jumped the track at the Ft. Wayne crossing just west of Alliance station yesterday, delaying through traffic on the C. & P. road.

Passengers were transferred at the point and brought to Irondale, where another transfer was made to a train for Pittsburg and down river points. This was occasioned by an ice gorge weakening two bridges near Irondale.

The C. & P. road sent its wreck train to replace the Lake Erie cars on the track because the latter road has no wrecking machines in that vicinity.

It was rather an unfortunate day for the railroad company, although Train Dispatcher Rogers managed to bring all the trains into Wellsville on time as near as possible.

QUANTITY OF ICE LOST

Calvin Bunting a Heavy Loser Through the Sudden Breaking Up of the River.

The breaking up of the ice in the river caused loss to at least one Wells-ville merchant.

Calvin Bunting had three men and one horse working on the river Monday and Tuesday cutting ice for storage. About two acres were squared off ready to be carted away. When the river broke up yesterday all this ice passed down stream, in one cake, just as it had been cut by Bunting, who is out the wages the men earned.

An old sand flat, for several years moored to the shore at the Third street wharf, was carried down the river when the ice went out.

Two shanty boats tied to the shore

at the east end of the Wellsville station are in danger of being carried down the river if any great flood results.

RENOVATED OFFICE

Mayor Fogo to Have Improved and Handsome Quarters in a Few Days.

Within a few days the improvements that have been under way in the office of Mayor Fogo will be completed. All woodwork is being repainted and varnished. The desk formerly occupied by mayor Dennis, is being overhauled for use of Clerk Taylor, of the board of public safety, who will also have an office in with Mayor Fogo.

Matting has been placed under the linoleum, and with the handsome oak desk Mayor Fogo has just placed in the office, it is one of the neatest rooms for business purposes in the city.

BOIL THE WATER

Health Officer Tarr Issues a Pertinent Warning to Wellsville Citizens.

Health Officer Tarr, of the Wells-ville board of health, today urged residents of Wellsville during the present high water to boil their water before drinking it.

NOW IS THE TIME USE HYOMEI

Cures Catarrh and Prevents Colds. No Stomach Dosing Just Breathe It.

At this season of the year, catarrhal troubles are very prevalent, and nearly every person suffers to a certain extent.

Catarrh is actually the result of a succession of colds and can be easily prevented if the proper treatment is followed.

Hyomei is a natural yet scientific cure for the colds and grip troubles that lead to catarrh, as well as a positive cure for the disease itself.

The balsamic air of Hyomei breathed through the small pocket inhaler that comes with every outfit is filled with germ-killing and health-giving qualities that penetrate to the minutest air cells of the head, throat and lungs. It kills all catarrhal germs and frees the mucous membrane from poisonous microbes, and makes a perfect and complete cure of catarrh.

The complete outfit costs only \$1, while extra bottles of Hyomei can be procured for 50c. Will Reed sells Hyomei on the "no cure, no pay" plan, and will refund the money if it fails to give perfect satisfaction. You take no risk whatever in using Hyomei. It is the only treatment sold under a guarantee of this nature where a leading local druggist agrees to return the money if the treatment fails to cure.

drinking it. This is a precaution against an epidemic of typhoid fever. Dr. Tarr says:

"I desire to urge the residents of Wellsville to boil all the water from the Ohio river that is being used for drinking purposes for at least 20 to 30 minutes. By so doing all germs will be killed, and the danger of becoming ill will be lessened. After the water is boiled, it should be placed in the open air, this also helping to purify the water.

"There is little if any typhoid fever in Wellsville now, and in the face of a flood, it is well to take the precaution of boiling water."

SIGNS FOR THE STREETS

Will Be Put in Place Shortly And the Work Will Cost Less Than \$500.

City Engineer Leith is preparing a list of the names of the streets of Wellsville for the purpose of ascertaining the exact number of signs that will be required to place at the corner of every street.

Council let the contract for this improvement Wednesday evening. The manufacturer says the improvement will cost less than \$500, which is lower than the amount council thought would be necessary.

The signs will be placed on opposite corners at intersection of every street. As soon as the statement is forwarded to the manufacturer by Mr. Leith only two weeks will be required to complete the contract.

Additional letters that may be required to replace any letter in a sign that may be broken after it is in position will cost the city five cents.

PAY FOR LABORERS

A Large Amount of Money Dealt Out to Those Employed on C. & P. Construction Work.

Contractor Sims, having charge of some new construction work for the C. & P. road, paid off about 300 men yesterday at the offices of the company on Front street. Most of the men were foreigners, but a few Americans were among the number. It is estimated that over \$5,000 was paid out by the paymaster.

Contractor John Murphy, of New York, took about \$6,000 to Hammonds-ville this morning, where he paid off the men who have worked on another railroad contract for the past month. The paymaster was accompanied by Chief Houser and another officer on their way over the country.

Mallory's Remains Taken Home.

Postmaster J. W. Lawrence, of Syracuse, O., arrived in Wellsville this morning to claim the body of Mail Clerk Meredith Mallory. Mr. Lawrence left for home at noon, but will not

reach Syracuse with the body until Saturday afternoon. It is likely the funeral will be held Sunday afternoon, although Mr. Lawrence made no definite statement of this fact.

Passengers Still Transferred.

Repairs to the bridges on the Cleveland & Pittsburg railroad, near Irondale, which were damaged by the ice gorge in Yellow creek yesterday morning, will be completed this afternoon. Until noon today passengers from east and west bound trains on the main line were transferred at Irondale.

Death of a Brother.

Word was received by Bruce Williamson, of Main street, yesterday, of the death of his brother, Cyrus Williamson, near Pittsburg, Tuesday. Mr. Williamson was killed in an accident. The news reached Wellsville too late for his brother to attend the funeral.

Society Women

The Grand-Niece of
U. S. PRESIDENT JAMES K. POLK,
MRS. IDA ROSER,
Induced to relate Her Experience for Benefit of Other Women.

"DEAR MRS. PINKHAM:—I have been married for nearly two years, and so far have not been blessed with a child. I have, however, suffered with a complication of female troubles and painful menstruation, until very recently.

"The value of **Lydia E. Pinkham's Vegetable Compound** was called to my attention by an intimate friend, whose life had simply been a torture with inflammation and ulceration, and a few bottles of your Compound cured her; she can hardly believe it herself to-day, she enjoys such blessed health. I took four bottles of your Compound and consider myself cured. I am once more in fine health and spirits; my domestic and official duties all seem easy now, for I feel so strong I can do three times what I used to do. You have a host of friends in Denver, and among the best count. Yours gratefully,
"MRS. IDA L. ROSER, 326 E. 18th Ave, Denver, Col."

Lydia E. Pinkham's Vegetable Compound

seems to be the universal woman's medicine for the high and low, rich and poor; and why not? The organism of all women is alike, and the society woman is just as susceptible to the ills of womankind as are her less favored sisters, but owing to their inherent distaste for advertised articles will resort to all other methods for a cure first. Yet it is a fact worth recording that Mrs. Pinkham is constantly receiving letters from women of high social position, saying as a last resort and without any faith, they tried **Lydia E. Pinkham's Vegetable Compound** and were completely cured by it. She actually has thousands of such letters.

Mountains of gold could not purchase such testimony—or take the place of the health and happiness which **Lydia E. Pinkham's Vegetable Compound** brought to these women. No woman should suffer with such a remedy at hand.

SPECIAL ADVICE TO YOUNG WOMEN FREE.

From a vast experience in treating female ills, extending over 20 years, Mrs. Pinkham has gained a knowledge which is of untold value to every ailing young woman. Her advice is very sure to help. If you need such help, write her. She will be glad to answer you confidentially and free of charge. Address Lynn, Mass.

I therefore let you know that I shall recommend them to any one suffering from such troubles."

COUNCIL TO REGULATE THE SALE OF COAL

Many Customers Complain of Short Weight—The Amount Purchased Often Guessed At.

That customers are receiving short weight in coal, or paying for less coal than they receive, is a complaint Wells-ville coal dealers hear whenever they deliver a load of coal. It is thought perhaps council at a future meeting will be asked to pass an ordinance relating to the matter.

It appears that almost all coal used in Wellsville is from mines and yards near the city where there are no scales. Only a guess is made by the driver or dealer as to how much coal is on a wagon after it is loaded.

As the coal is taken direct to where it has been ordered, about the first question that greets the driver is—"Where is the ticket showing how much coal you have on the wagon?"

Inasmuch as the driver holds no weight ticket, objection is made at once as to the amount of coal. Frequently the load is refused. Generally more coal is on the wagon than the party has ordered, but it is hard to convince some people of this fact.

G. J. Miles, one of the oldest coal dealers in the city, called the attention of Chief of Police Houser to this matter yesterday, with the request that he present it to Mayor Fogo. It is the desire of Mr. Miles that the mayor ask council, or make some arrangement where it will be required that all coal be brought into Wells-ville on wagons be weight before it is delivered.

There is a large scale at city hall, and some coal dealers would like to have their coal weighed on this before delivery.

A LODGE OF EAGLES

Over 40 Names Already Secured And an Aerie Will Soon Be Established.

Within the next two weeks a new lodge of Eagles will be organized in Wellsville. The organizing is being done under the direction of Samuel Brubaker, of Third street.

It is said that while 50 names are required before a charter is obtained, over 40 of these have been secured.

RENOVATED OFFICE

Mayor Fogo to Have Improved and Handsome Quarters in a Few Days.

Within a few days the improvements that have been under way in the office of Mayor Fogo will be completed. All woodwork is being repainted and varnished. The desk formerly occupied by Mayor Dennis, is being overhauled for use of Clerk Taylor, of the board of public safety, who will also have an office in with Mayor Fogo.

Matting has been placed under the linoleum, and with the handsome oak desk Mayor Fogo has just placed in the office, it is one of the neatest rooms for business purposes in the city.

BOIL THE WATER

Health Officer Tarr Issues a Pertinent Warning to Wellsville Citizens.

Health Officer Tarr, of the Wells-ville board of health, today urged residents of Wellsville during the present high water to boil their water before drinking it. This is a precaution against an epidemic of typhoid fever.

Dr. Tarr says:

"I desire to urge the residents of Wellsville to boil all the water from the Ohio river that is being used for drinking purposes for at least 20 to 30 minutes. By so doing all germs will be killed, and the danger of becoming ill will be lessened. After the water is boiled, it should be placed in the open air, this also helping to purify the water."

"There is little if any typhoid fever in Wellsville now, and in the face of a flood, it is well to take the precaution of boiling water."

SIGNS FOR THE STREETS

Will Be Put in Place Shortly And the Work Will Cost Less Than \$500.

City Engineer Leith is preparing a list of the names of the streets of Wellsville for the purpose of ascertaining the exact number of signs that will be required to place at the corner of every street.

Council let the contract for this improvement Wednesday evening. The manufacturer says the improvement will cost less than \$500, which is lower than the amount council thought would be necessary.

The signs will be placed on opposite corners at intersection of every street. As soon as the statement is forwarded to the manufacturer by Mr. Leith only two weeks will be required to complete the contract.

Additional letters that may be required to replace any letter in a sign that may be broken after it is in position will cost the city five cents.

PAY FOR LABORERS

A Large Amount of Money Dealt Out to Those Employed on C. & P. Construction Work.

Contractor Sims, having charge of some new construction work for the C. & P. road, paid off about 300 men yesterday at the offices of the company on Front street. Most of the men were foreigners, but a few Americans were among the number. It is estimated that over \$5,000 was paid out by the paymaster.

Contractor John Murphy, of New York, took about \$6,000 to Hammonds-ville this morning, where he paid off the men who have worked on another railroad contract for the past month. The paymaster was accompanied by Chief Houser and another officer on their way over the country.

Mallory's Remains Taken Home.

Postmaster J. W. Lawrence, of Syracuse, O., arrived in Wellsville this morning to claim the body of Mail Clerk Meredith Mallory. Mr. Lawrence left for home at noon, but will not

at the east end of the Wellsville station are in danger of being carried down the river if any great flood results.

HOME AFFAIRS

Brief Notes of a Personal Nature And of Matters About Town.

Will Join the Giants—Charles (Doc) Howard has signed with the Cuban X Giants and will report at Norfolk, Va., in April.

Fined Again—Martin Leach was arrested again yesterday afternoon for drunkenness. He was fined \$2 and costs this morning by the mayor.

Now Recovered—Mrs. C. Conley has recovered from her recent illness. She says the report that she was suffering for food or fuel was not true. She was taken ill and was unable to work and therefore called for aid.

Revival a Success—The revival services at the First M. E. church last evening were marked by a most successful meeting and a number of conversions. The music under the direction of Tallie Blount was an especially interesting feature and Dr. Pratt preached a powerful sermon.

Dr. Pratt Invited—Rev. Dr. Pratt, of the First Methodist church, has been invited to be one of the speakers in the field day exercises at New York to advance the twentieth century thank offering movement of the Methodist church. Meetings will be held all over the city on January 31, the day fixed for the rally, and a number of prominent ministers have been invited to make addresses. Owing to the revival services at the church here Rev. Dr. Pratt could not accept the invitation.

NEW FENDER HERE

But the Exposition of Its Efficiency Postponed Until Tomorrow.

General Manager George R. Ahrends, of the Rock Springs Street Railway company, announced this morning that it would be impossible to give an exhibition today of the new fenders ordered to be placed on each car of the Southside line.

The new fender has arrived and is being attached to a car and will be exhibited tomorrow afternoon at 2 o'clock in Chester directly in front of the park.

SOCIAL EVENTS

Rag Time Social.

The "rag time" social given last evening by the Christian Endeavor society of the First Presbyterian church was a great success. The young people of the church attended en masse in all sorts of queer looking costumes. The evening was spent in the enjoyment of games and music. The social committee of the society having in charge the social are to be congratulated upon the success of this event, and the pleasant evening spent by every one in attendance.

Stratton Circle Meeting.

A meeting of Stratton circle, Protected Home circle, was held last evening in Grand Army hall. It was the regular business meeting and it was decided by the members to hold the installation of officers on the evening of February 4. The event will be enjoyable for all the members and others who attend, as a fine program of music and addresses will be given following the installation ceremony.

Nearing the 100 Mark.

Rock Springs court, Tribe of Ben Hur, will hold an interesting meeting in Mechanics' hall Saturday night. A large class of candidates will be initiated into the mysteries of the order and a number of the high court officers and visitors will be present. The membership of Rock Springs court is now nearing the 100 mark and much interest is being taken in the order by the members.

Dance at Wellsville.

A dance will be given this evening in city hall, at Wellsville, by the railway trainmen and their friends. There will be a large attendance and all are anticipating the affair with pleasure. For those who in this city will attend special arrangements are being made.

Thrown from a Sleigh.

Edward Hadley, a farmer residing about two miles back of Chester, while

on his way to town this morning was thrown from the sleigh in which he was riding. Mr. Hadley was coming down a steep hill and the sled swung around, almost throwing the horse to the ground. Mr. Hadley was considerably shaken up, and is glad of his escape from injury.

Pleasant Euchre Party.

At her pretty home on East Market street, Miss Mayme Collins, daughter of Mr. and Mrs. Thomas Collins, last

evening delightfully entertained a crowd of her young lady and gentlemen friends. The playing of euchre was the principal diversion, after which a dainty repast was enjoyed. Prizes were awarded for the most progressions, the first to Charles Heath and the second to Miss Lucy Drabble. The consolation prizes were won by the hostess and Mr. Smith.

Clearance sale now going on at Joseph Bros.

Queen Quality

You Want Both!

When you try on a pair of shoes look for two things—comfort and style. You must have them both! Either one by itself is not enough. It is easy to make a comfortable shoe it is easy to make a stylish shoe. But it is very difficult to make a stylish shoe, cult to combine the two. To make a stylish shoe that is comfortable is the highest art.

The one shoe that fits where all others fail is "Queen Quality." "Queen Quality" originates its own styles. Then they are copied by other makers. If you want to be ahead on the fashion wear "Queen Quality."

HOME AFFAIRS

Brief Notes of a Personal Nature And of Matters About Town.

Will Join the Giants—Charles (Doc) Howard has signed with the Cuban X Giants and will report at Norfolk, Va., in April.

Fined Again—Martin Leach was arrested again yesterday afternoon for drunkenness. He was fined \$2 and costs this morning by the mayor.

Now Recovered—Mrs. C. Conley has recovered from her recent illness. She says the report that she was suffering for food or fuel was not true. She was taken ill and was unable to work and therefore called for aid.

Revival a Success—The revival services at the First M. E. church last evening were marked by a most successful meeting and a number of conversions. The music under the direction of Tallie Blount was an especially interesting feature and Dr. Pratt preached a powerful sermon.

Dr. Pratt Invited—Rev. Dr. Pratt, of the First Methodist church, has been invited to be one of the speakers in the field day exercises at New York to advance the twentieth century thank offering movement of the Methodist church. Meetings will be held all over the city on January 31, the day fixed for the rally, and a number of prominent ministers have been invited to make addresses. Owing to the revival services at the church here Rev. Dr. Pratt could not accept the invitation.

NEW FENDER HERE

But the Exposition of Its Efficiency Postponed Until Tomorrow.

General Manager George R. Ahrends, of the Rock Springs Street Railway company, announced this morning that it would be impossible to give an exhibition today of the new fenders ordered to be placed on each car of the Southside line.

The new fender has arrived and is being attached to a car and will be exhibited tomorrow afternoon at 2 o'clock in Chester directly in front of the park.

Partition Proceedings.

Lisbon, January 22.—(Special.)—Hazel May Van Fossen, a minor by C. G. Van Fossen, her guardian, has brought partition proceedings against Bertha E. and Zenora Van Fossen and others for a one-quarter interest in 120 acres in Elkrun township. She is an heir to the late Jacob Van Fossen.

SOCIAL EVENTS

Rag Time Social.

The "rag time" social given last evening by the Christian Endeavor society of the First Presbyterian church was a great success. The young people of the church attended en masse in all sorts of queer looking costumes. The evening was spent in the enjoyment of games and music. The social committee of the society having in charge the social are to be congratulated upon the success of this event, and the pleasant evening spent by every one in attendance.

Stratton Circle Meeting.

A meeting of Stratton circle, Protected Home circle, was held last evening in Grand Army hall. It was the regular business meeting and it was decided by the members to hold the installation of officers on the evening of February 4. The event will be enjoyable for all the members and others who attend, as a fine program of music and addresses will be given following the installation ceremony.

Nearing the 100 Mark.

Rock Springs court, Tribe of Ben Hur, will hold an interesting meeting in Mechanics' hall Saturday night. A large class of candidates will be initiated into the mysteries of the order and a number of the high court officers and visitors will be present. The membership of Rock Springs court is now nearing the 100 mark and much interest is being taken in the order by the members.

Dance at Wellsville.

A dance will be given this evening in city hall, at Wellsville, by the railway trainmen and their friends. There will be a large attendance and all are anticipating the affair with pleasure. For those who in this city will attend special arrangements are being made.

Thrown from a Sleigh.

Edward Hadley, a farmer residing about two miles back of Chester, while

on his way to town this morning was thrown from the sleigh in which he was riding. Mr. Hadley was coming down a steep hill and the sled swung around, almost throwing the horse to the ground. Mr. Hadley was considerably shaken up, and is glad of his escape from injury.

Pleasant Euchre Party.

At her pretty home on East Market street, Miss Mayme Collins, daughter of Mr. and Mrs. Thomas Collins, last

evening delightfully entertained crowd of her young lady and gentlemen friends. The playing of euchre was the principal diversion, a which a dainty repast was enjoyed. Prizes were awarded for the progressions, the first to Chas. Heath and the second to Miss L. Drabble. The consolation prizes were won by the hostess and Mr. Smith.

Queen Quality

You Want Both!

When you try on a pair of shoes look for two things—comfort and style. You must have them both! Either one by itself is not enough. It is easy to make a comfortable shoe it is easy to make a stylish shoe. But it is very difficult to combine the two. To make a stylish shoe that is comfortable is the highest art.

The one shoe that fits where all others fail is "Queen Quality." "Queen Quality" originates its own styles. Then they are copied by other makers. If you want to be ahead on the fashion wear "Queen Quality."

Boots \$3.00.
